

ATF Automatic Transmission Fluid

Product Description

Pertua ATF is an automatic transmission fluid with superior anti-wear protection, oxidation control, and friction performance that provides maximum protection for the transmission parts.

Applications

Pertua ATF is an automatic transmission fluid that has been formulated to meet all Ford & GM automatic transmissions that do not specify DEXRON®-VI, MERCON® V and Type F fluids.

Benefits

- Formulated with Pertua's Durasyn Technology
- Maximum protection of transmission parts for all driving conditions
- Maintains detergency even on extreme conditions
- Extreme resistance to high temperature and pressure
- Superior anti-wear protection
- Superior oxidation control
- Superior friction performance
- Longer period between oil changes

Typical Properties

Properties	Method	Unit	Typical Result
Density at 15°C, Relative	ASTM D4052	g/mL	0.852
Viscosity, Kinematic 100°C	ASTM D445	centistokes	10.1
Viscosity, Kinematic 40°C	ASTM D445	centistokes	61.7
Viscosity Index	ASTM D2270		150.7
Pour Point	ASTM D97-12	Degree Celsius	-28
Total Acid Number	D664-11a	mgKOH/g	0.67

Performance Claims

Dexron III, Mercon III

Recommendations for Use

Before using the product, the vehicle's maintenance guide should be checked. Oil changes should be carried out in accordance with the manufacturer's recommendations.

The product should not be stored at temperatures over 60°C. It should be kept away from sunlight, intense cold and extreme temperature fluctuations.

If possible, the packaging should not be exposed to the elements. Otherwise, the drums should be laid horizontally in order to avoid any contamination from water and to prevent the product's label from rubbing off.

Health and Safety

This product does not pose a health or safety hazard when used in the recommended application and when proper industrial safety practices are observed. As with all industrial oils and lubricants, prolonged contact with skin should be avoided, especially with used oils. Wash skin with soap and water after contact. Take used oil to an authorized government accredited recycler.
